OUR BACKGROUND

Valcor Group's leadership brings experience from the U.S. military, French military units, law enforcement, and the FBI. This multidisciplinary background shapes how we recruit, train, supervise, and deploy security personnel across complex environments.

HOW WE OPERATE

DUAL TRAINING

TRAINING #1

Company / Facility Training

Officers receive structured in-house training at our facility covering company standards, procedures, reporting, and professional expectations.

TRAINING #2

Property / Site Training

On-site training tailored to each property's procedures, risks, post orders, and client expectations.

OPERATIONAL ACCOUNTABILITY

Licensed officers

BSIS-licensed officers professionally vetted and trained for their assigned environment.

24/7 management

24/7 supervision and rapid response management throughout every shift.

Geofencing

Real-time GPS verification provides accountability for officer presence and patrol activity.

Immediate 24/7 Management Support

Our management team is available 24/7 by text and phone for immediate support, escalation, and response.

Verified, not promised

Every check-in is timestamped and geofenced. You see coverage as it happens, not in tomorrow's summary.

Illustrative view of Valcor live operations reporting

Reporting you can hold us to

Daily reports include photos, patrol logs, and incident notes, delivered straight to property management

HOW WE PROTECT YOUR PROPERTY

SITE-SPECIFIC POST ORDERS

Written procedures tailored to the property's layout, access points, risks, and client expectations.

GEOFENCED PATROLS & PROPERTY INSPECTIONS

Patrols are geofenced and documented through DARs and IRs, with live photos captured directly from the property.

REAL-TIME REPORTING & INCIDENT TRANSPARENCY

Timestamped Daily Activity Reports and Incident Reports provide management with photos, incident details, and clear visibility into on-site security activity.
